product certificate

TIP-OIL FS PAO CLP 150 0002-000288

Description of the

TIPP-OIL FS PAO CLP 150 is manufactured on the basis of fully synthetic oils and proven additives. Due to its special combination of active ingredients, a stable high-pressure absorbency is achieved under shock loads.

Thanks to its balanced formulation, TIPP-OIL FS PAO CLP 150 offers a stable and protective lubricating film both at extreme low and high temperatures.

Instructions for use

TIPP-OIL FS PAO CLP 150 can be used in almost all industrial gear units that require a synthetic CLP gear oil according to DIN 51517 Part 3.

Heavy-duty gear units can be reliably lubricated even at temperatures of up to 150 °C, while at the same time providing corrosion protection for components containing non-ferrous metals.

Quality Classification

specifications

DIN 51517 part 3

TIPP-OIL FS PAO CLP 150 is proven in practice and tested in units with filling regulations:

AGMA 9005-D94

Cincinnati Milacron

Clean Panel Coker

S-200 Oxidation Tubes

US Steel 224

Features & Benefits

A very stable high-pressure absorbency under shock loads

Excellent cold behaviour

A low pour point

Excellent wear protection

Excellent rust and corrosion protection

A low foam formation

Technical characteristics

Properties Data Unit Test according to

kinematic viscosity at 40°C 147 MM²/S DIN ISO 51562-2

viscosity index 186 DIN ISO 2909

appearance YELLOW visual

density at 15°C 851 KG/M³ DIN EN ISO 12185

Pour Point -54 CELSIUS ASTM D 7346
