product certificate

TIPP-OIL CVT Fluid ATF

CVT Fluid is a premixed lubricant based on mineral oils for 2-stroke engines. It is characterised by the reduction of coking in the piston ring grooves, the combustion clearances and the outlet slots. CVT Fluid reduces the formation of rust damage to the engine parts and the contamination of spark plugs.

Application note:

CVT Fluid is recommended for the lubrication of air-cooled and water-cooled 2-stroke petrol engines such as lawn mowers, motorcycles, mopeds, mopeds, chain saws, etc. CVT Fluid is suitable for the lubrication of separate lubrication and self-mixing systems. Mixing ratio: 1:50 (oil : fuel) Follow manufacturer's instructions.

Specifications:

API TB, ISO-L-EGB, JASO FB

Properties:

Excellent corrosion protection

Excellent oxidation stability

Very good wear protection

Reduction of the tendency to carbonization

Environmentally friendly due to low smoke emission
